

1

In your package :

Hanger plate

Raising screws

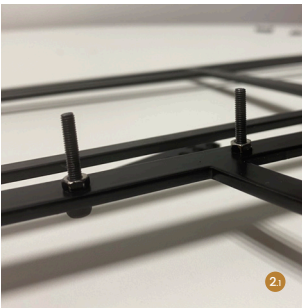

Nuts

1 To install raising screws.

To do this, put the screws in each hole you will see on your model. Fix them with the nuts.

2 To install the hanger plate.

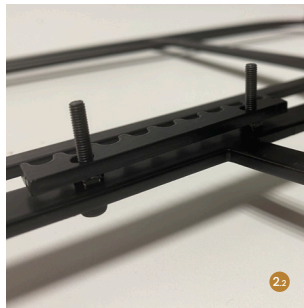

The hanger plate is installed on the middle-top of your model, using the raising screws.

2.1

2.1 Raising screws + 1st nut

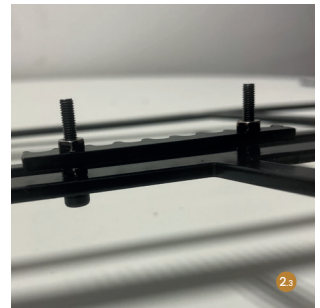

Fix the two screws with the nuts.

2.2

2.2 Hanger plate

Place the hanging plate over the screwed nuts.

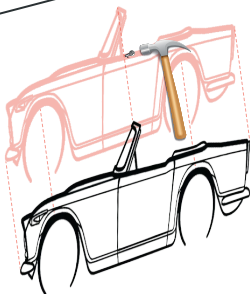

2.3

2.3 2nd nut

Screw the 2nd nuts to hold the hanging plate.

3 Silhouette ready to install

Install a nail on your wall and hang your model on it.

3D EFFECT WITH SHADOW
